

Excellence in Snow and Ice Control Award

Purpose The APWA Excellence in Snow and Ice Control Award was established to promote excellence in the management and administration of public works snow and ice operations. To promote the best practices in snow and ice removal while minimizing environmental impacts.

Award Presented to the agency(s) that overall demonstrates the best practices and innovations in snow and ice operations.

Eligibility Any public works agency actively involved in snow and ice removal and operations. Public works is defined as the physical structures and facilities that are developed, owned, and maintained by public agencies to house governmental functions and provide water, power, waste disposal, transportation, and similar public services, in accordance with established public policy. APWA membership is not required.

Selection The award winner(s) is selected by the APWA Winter Maintenance Subcommittee. No sitting member of the subcommittee or their respective agency shall be eligible for the award. Criteria to be used in the selection process can be found on the Supporting Data Form.

Nomination Process Nominations can be made by the managing public agency or APWA chapters. Six copies of submittal are required and should be sent to APWA National. Nominations will not be returned.

Deadline February 1, 2008

Presentation The award winner(s) is presented with a plaque at the North American Snow Conference.
