

White House Announces Website to Provide Free Covid-19 Tests

The Biden Administration unveiled a website on Tuesday, Jan. 18, with information on how to obtain free at home Covid-19 tests. The tests, available as a result of *the administration's purchase of 1 billion at-home tests, will be provided at no charge.*

In addition to the website,

<C:\Users\mshade\AppData\Local\Microsoft\Windows\INetCache\Content.Outlook\JP2RHP3K\www.COVIDTests.govwww.CovidTest.gov>, the administration will create a call line to help those unable to access the website place orders. To increase the availability of the tests nationwide, no more than four tests will be provided to each residential address. The White House expects the tests will usually ship within 7-12 days of ordering.
